ALLDATA MANAGE® Online
4 Custom Job Price Types

Standard Price

Typical Custom Job.

Receives its pricing from the total of parts and labor.

Best Used: When parts and labor cost will vary depending on vehicle type.

Example: Front Brakes Service
Remove and Replace Alternator
Complete Tune-Up

Maintenance Screen View

		Goods		Tax		Total	
		580.19		11.42		591.61	

Package Price

Requires a predetermined "sell" price to be set. The minimum amount the job will sell for.

Requires a labor line to be used.

Additional items exceeding the sell price will take the difference out of that labor line.
Total price increases accordingly.

Best Used: As "loss leader" custom job.

Example: Conv.Oil Change Special: $34.95 and Up

Complete Price

Requires a "sell" price to be set. The total amount customer pays, not including tax.

"Sell" price stays constant, regardless of total parts and labor cost.
Total price = ("sell" price + tax).

Taxes applied to each part and labor line.

Best Used: Prices are standardized/predictable.
Fleet accounts, Local/National accounts

Examples: Complete Shocks & Struts Special. Other "specials"

Fixed Price

Requires a "fixed" price for the entire job.

Price will not change regardless of parts and labor.
Parts and labor lines show as $0.00 price.

Job is taxed based on the selected Product Tax Type assigned

Total price = Fixed price.
Not taxed

Best Used: Labor services, jobs requiring minimal parts

Examples: Two-Wheel Alignment, Power Steering Flush, Tire Mount and Balance, Diagnostic etc.
